Dear Gary,

We want to provide you with an important update regarding the release of funds and the next steps.

Where We Are Now

- **As of last Tuesday**, funds were officially released by the **U.S. Treasury** and received by the **Federal Reserve Bank of New York**.
- **By Friday, June 27, 2025**, the funds were prepared for release into **Wells Fargo**.
- However, a compliance issue arose, requiring **Marshall Energy, Inc.** to be reinstated as a **foreign corporation in the United Kingdom ("UK")** to validate the transaction.

What Happened

- Although the **USA, UK, and EU Treasuries** authorized the transaction, the **Federal Reserve System** flagged the release.
- The root of the issue: The **Carbon credit annuities were first registered to Marshall Energy UK**, which lapsed, and now are registered to Marshall Green International as of 2023.
- While **Marshall Energy, Inc. (tech), Marshall Energy Global (utility), and Marshall Green International (carbon finance facility)** are all in good standing in the USA, UK, and the EU, the outdated UK registration for Marshall Energy, Inc. triggered the hold.
- Compliance required Marshall Energy, Inc. to be officially re-registered in the UK to align the transaction records and licensing under current financial regulations.

What's Been Done

- **By Monday, June 30**, all reinstatement paperwork and fees were submitted in the UK.
- We are now awaiting **final sign-off from signatory members of the UK Parliament**.
- Once approved, their system will sync with the **Federal Reserve**, triggering availability in **Wells Fargo**.
- After that, **Kingdom Trust** will initiate **reimbursement and settlement** to all noteholders.

Looking Ahead

We've overcome every hurdle in this unprecedented process. The UK Government office expects **final signatures by early next week**; however, our ability to accelerate is solely dependent on the availability of its members. As soon as we receive confirmation, we'll inform you that **funds are available and transfers have begun**.

We deeply appreciate your continued **patience, trust, and commitment**. This is a historic transaction, and your resilience through it is helping shape a new world and financial paradigm.

With gratitude and anticipation,

Darin Forbes - TTEE
