

July 10, 2025

Gary Dolan
AVHI, LLC

Dear Gary,

We want to provide you with a timely update on the release of funds and the final steps currently underway.

Current Status

- We are awaiting the finalization of reinstatement as a foreign corporation in the United Kingdom per the process described in my recent letter of July 3, 2025.
- As of Wednesday, July 9, our direct contact within the UK Government confirmed that the reinstatement has now been approved and is now pending final signatures from designated parliamentary members.

What We've Completed

- On Monday, June 30, all required paperwork and payments for reinstatement were submitted.
- By Wednesday, July 9, our application was officially accepted as complete and approved by UK authorities for signature.
- The only remaining step is the acquisition of final sign-off from signatory members of UK Parliament.

Next Steps & Outlook

- While we had anticipated final signatures by the middle of this week, we've been informed that we are currently in the queue for parliamentary sign-off and they will try to finish this week but may take another day or two.
- Although we have formally requested expedition, the process remains subject to UK bureaucratic procedures, over which we have no direct control.

Closing Remarks

We recognize the significance of this journey and remain fully dedicated to transparency and thoroughness. Your ongoing patience and trust are not only appreciated—they are crucial in completing this historic, first-of-its-kind transaction. We will provide another update as soon as we receive notification of the final sign-offs.

With deep appreciation,

Darin Forbes - TTEE
